National Trust

Statement of Significance

Last updated on - June 4, 2004

Rare or localised

Outstanding example of specie

Growing on the north-east facing slope, this individual specimen stands out from surrounding plantings due to its rounded crown reaching ground level and striking blue foliage. This endemic species is restricted to eastern Victoria (Buchan to Lakes Entrance) on limestone soils. Three mature trees, planted by Melbourne University in circa1975, grow at Miegunyah, Toorak and a large specimen occurs opposite the main entrance to the Bailleau Library, Melbourne University.

The tree is located in Lake Tyers Forest Park, Princes Highway, south west sideof Toorloo Arm Bridge.

Measurements: 15/10/1993
