Location

Rosalind Park, Pall Mall,, BENDIGO VIC 3550 - Property No T11381

Municipality

GREATER BENDIGO CITY

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 10, 2004

Rare or localised

Located in the Queens garden, this is an attractive example of a tree rare in cultivation in Victoria. The species appears to have been extensively planted around the turn of the century, particularly in provincial botanic gardens and this is the furthest north any planting has survived.

The Chilean wine palm is native to Chile where it has the most southerly distribution of any palm in South America.

Measurements: 11/1986

Spread (m): 7

Girth (m): 3.35

Height (m): 12.7
Estimated Age (yrs): 90
Condition: Good

Access: Unrestricted
