National Trust

Statement of Significance

Last updated on - June 11, 2004

Horticultural value;

Tree which occurs in a unique location or context and so provides a contribution to the historic garden or park;

Rare or localised;
Outstanding size

A very large specimen of this unusual palm. Very few wild stands remain in Chile as they were felled to yield sap. This particular specimen has an unusual trunk shape. Less than 10 specimens are known to occur in Victoria. Endangered world species.
Located 30 metres East side of Hitchcock Fountain

Measurements: 04/1984
