## Uniting Church Hall

---

**Location:**

238 Maroondah Highway Healesville, YARRA RANGES SHIRE

**Heritage Inventory (HI) Number:**

**Listing Authority:** HI

**Description:**

A simple weatherboard church comprising a nave and projecting entry porch, with a gabled corrugated iron roofs. The end elevation of the nave has a louvred ventilator and turned timber finial at the gable apex. The nave walls contain lancet arched timber-framed windows with a multi-pane sash surmounted by a bottom hung hopper. The entry porch has a v-jointed door on one side and a panelled door on the other (presumably non-original). Alterations also include the concrete ramp with metal handrails and the brick steps in front of the porch. The original finial to the porch gable end has been lost and a fluorescent light fitted in its place. Gutters and downpipes have been replaced and a doorway in a side elevation has been sheeted over. The sub-floor structure is deteriorating and there are missing weatherboards.
