

Victorian Heritage Database Report
JURA

Location:

242-244 MOUNTJOY PARADE LORNE, SURF COAST SHIRE

Heritage Status / Level of Significance:

Registered

Victorian Heritage Register (VHR) Number: H0822

Listing Authority: VHR

Heritage Overlay Number: HO30

Statement of Significance:

Built in 1919 as the family beach house for western district grazier Clive Campbell, Jura has both architectural and historic significance.

1. It is one of the first, one of the few, and one of the largest remaining known examples of Knitlock

construction in Australia, a concrete block construction technique evolved and patented by Walter Burley Griffin in 1917.

2. It is the only identified use of this type of construction by the notable architectural firm of Klingender and Alsop.

3. Jura is one of the largest surviving and one of the few remaining of a collection of holiday homes built by successful western district graziers overlooking Louttit bay at Lorne. Jura surpasses them all in grandeur, style and situation.

4. The interior of Jura with its dark stained timber floors, skirtings, picture rails, ceilings beams and built-in window seats and unpainted finishes is a fine example of Klingender and Alsop's reputation for applying Arts and Crafts principles of truthfulness to structure and materials to produce an unpretentious and informal atmosphere entirely suited to the design of a beach house.

5. Both the exterior and interior of the house are remarkably intact.

Heritage Study / Consultant	
Construction Date Range	1919 -
Architect / Designer	Klingender, FL
Municipality	SURF COAST SHIRE
Other names	
Hermes number	664
Property number
