Location:
Mallacoota Sportsground and Camping Park, MALLACOOTA, EAST GIPPSLAND SHIRE

Heritage Status / Level of Significance:
State

Heritage Inventory (HI) Number:
Listing Authority: HI

Statement of Significance:
Rare or localised
Aesthetic value

The population was first described in 1934 by Blakely as E. maidenii var. williamsonii. There are 39 trees recognised (1982), all occurring in the Mallacoota township area and so have been dubbed the 'Mallacoota Gums' by the locals. These are the only known hybrids between these two parents, and are a most attractive looking tree.

See article "The Relationship of Some Populations involving Eucalyptus cypellocarpa and E. globulus to the Problem of Phantom Hybrids". Kilpatrick, J.B., Simmon, D. and Parsons, R.F. (1973) New Phytol. 72, 867-876

The tree is located in the Mallacoota Sportsground and Camping Park, Develing's Gulch, Mallacoota.

Measurements: 22/11/1996
Spread (m): 36.6
Girth (m): 8
Height (m): 27.5
Est. Age (yrs): 200
Condition: Fair

Access: Unrestricted
Classified: 09/12/1982
